Youngker, -William Youngker, son of David and A. Youngker, was born in Stark county, Ohio, and died in Henry county, O., July 20th, 1886, aged 40 years, 6 months and

In the year 1851 his parents moved from Stark county to Seneca county, Ohio. After a few years residence there, they moved to Henry county. Ohio, where they have since resided. Some fifteen years since the subject of this obituary notice was married to Charity I. Bishop; they were blessed with seven children, two of them have alread passed to the Spirit world. By his death his wife has lost a kind and loving h fond and doating parent, and the community an excellent citizen-one who will be greatly missed. The large concourse of sympathizing friends and neighbors that attended at his funeral, attests the high estimation he was held by the community in which he resided. In early life he became a subject of saving grace and united with the United Brethren church he was ever afterwards a zealous faithful christian. He was married in the year 1836 to Mans Hofrechter, and from that time to the present, has been identified with the people, the interests and the progress of New Bavaria. He filled faithfully in the home the varia. He filled faithfully in the home the place of a husband and father, and was believed in the community as a neighbor and friend. The deceased was, for a number of months, the subject of avere affliction which he endured with great patience, waiting calmly and sweetly the approach of the deatons, and when the closing scene drew that without fear, he entered upon the fairer plains of a blissful immortality, where he will avait the coming of a large circle of relations who will remember him with feelings atives who will remember him with feelings of tender regard and love.

ED. NORTHWEST:-The old saying is, don't go South. I begin to think that it ought to be changed so as to read: "Don't go North." At least your readers would have decided so had they been here; for the past five weeks, the thermometer ran from 90 to 120 degrees in the shade, and in the sun it was so hot that the thermometer was not long enough to tell how hot it was. Through the middle of the day the ground was so hot that it was impossible for a person to go barefoot. There was no rain for six weeks, and the drouth has damaged the corn so that it wont average over half a crop. The potato crop will be ilmost a failure. Wheat and oats are good. think the failure of the corn crop is all for the best, as there were thousands of bushels of old corn on hand this spring that the farmers offered for 15c per bushel, and there was but little sale for it at that price. The hog cholers was a great damage to this part of Nebraska, as the only way of making much money out here is on hogs and cattle. Hogs are worth 4c per pound on foot. I have a word of advice to give to the Henry county boys, which is this: Don't come west without bringing your girl with you, if you are fortunate enough to have one, especially if she is subject to sudden attacks of typhoid fever, as it generally leaves some farmer minus a hand.
